

Hello ladies and gentlemen, rockhounds of all ages,

Livingston Gem and Mineral Society is proud to have our 47th annual 2020 Rockhound's Dream Show and host the wonderful people from the Midwest Federation! Our show has been a wonderful thing for the community and all our members take pride in showing off our impressive selection of gems to the public, and our skills in cabbing and silversmithing. This year there will be 20+ vendors, each with different treasures from the last so be sure to shop around! The activities this year are a silent auction and raffle, flint knapping, many children's activities, member cabochon and jewelry displays, and faceting, silversmithing, and beading demonstrations.

Our shop is located in Hartland, Michigan situated inside of the Hartland Community Education Center. Here we have a full range of grinding, buffing and polishing wheels for stones as well as metal. We also provide a large rock cutting station, beading station, and silversmithing tables. During the year we volunteer ourselves to different science fairs and shows to educate others about gems and minerals, and invite the 4H Club to our shop for their lapidary badges.

With that introduction I welcome all members of the Midwest Federation and all rockhounds to come join us at the show. I can't wait to see all of you there.

Sincerely,  
Zachary Palmieri
