The Lodestar is the newsletter of the Southeast Federation of Mineralogical Societies, Inc. and is published electronically every month.

THE SOUTHEAST FEDERATION OF MINERALOGICAL SOCIETIES, INC.
A Non-Profit, Non-Commercial, Non-Political Organization and Regional Federation of the American Federation of Mineralogical Societies

PURPOSE:
To bring about a closer association of Clubs and Societies devoted to the study of Earth Sciences and the practice of Lapidary Arts and Crafts in the Southeast part of the United States.

OBJECTIVE:
To cooperate with similar Federations to promote public interest in the Earth Sciences and the conservation of natural resources.

President’s Report

From the President’s desk

  – Dave Wayment, President

    It is hard to believe the summer is over. Here in Florida, the public schools have already started for the fall. The first Wildacres session is going on this week. Before you know it, September will be here with the second SFMS Wildacres Workshop session. Check out the classes offered at www.SFMSworkshops.com to see what is available. Some of the classes may
Have you joined the ALAA yet? Is your society a member? Who is the ALAA? They are the American Land Access Association. Their “purpose is promoting and ensuring the right of the amateur hobby collecting, recreational prospecting and mining, and the use of public and private lands for educational and recreational purposes; and to carry the voice of all amateur collectors and hobbyists to our elected officials, government regulators and public land managers.” These volunteers let us know what the Federal government is up to with changing the use of public lands, both the National Forests and land controlled by the Bureau of Land Management. Why join? The more members the ALAA has, the larger our voice in letting Congress know we do not want our public lands closed to rock hounds. Want to know more? Go to www.amlands.org

I have had the privilege of attending several rock and gem shows held by different societies over the last few months. It is always good to see old friends, both dealers and society members. Everyone has remarked that attendance is down at the shows. It appears to be down at the commercial as well as club shows. The revenue brought in from the shows is what permits our member societies to keep operating. I know 2 clubs I am a member of have had to alter budgets due to decreased revenues. I am putting out a general call for all SFMS members to do what they can to turn the downwards attendance around. If you club has a fantastic idea to boost attendance, let us know. What means of advertising work the best for you? Are you using social media? Are you putting your information on the SFMS website and in the Lodestar? Have you visited shows held by other clubs? Let’s get a discussion going to help all our clubs prosper and grow.

Committee Reports

Safety Article

Bob Green, Safety Chair

Summer is here and we are all trying to stay cool. Last month’s message was about the diligence required while working and playing outside. Well, one thing that the dry weather made us miss was cutting the grass. No water, no grass. The crunchiness of the grass is a bit unnerving, since grass should not crunch like “Captain Crunch” cereal. However, the downside to this is our exercise gets reduced and the heat making getting outside a bit testy, means we need to watch our weight. Sounds just like a TV commercial.

This month has been food safety month at our office. The displays provided plenty of tips on avoiding intestinal distress or worse. Recalls are very prevalent in the summer as the bugs that make us sick grow very rapidly. And with our world being very small, everything is interconnected and that makes it extremely easy for a serious food borne illness to propagate. And unfortunately it takes several days for the “bug” to be identified and develop the scope of the illness.
Proper refrigeration, proper segregation and proper cooking of meats and other food products that can grow bugs will help reduce the possibility of illness.

Another scary thing is the flesh eating bacteria that lives in many of the water play areas. This may not be the solution, but if you get a cut or scrape be sure to properly clean the wound and apply antibiotic cream. And if you are playing in the water, get out of the water, treat the wound and stay out of the water until it heals. This sounds like Scrooge, but this is not a bacteria to invite into your system. This also means that if you have an open wound, do not get into a natural body of water and most pools will keep you out of the water.

Ok, on to more pleasant things, summer, mountains, beaches all go together. So enjoy these but do it safely. As with last month’s article, stay hydrated, treat all of your wounds, whether sunburn, blisters, scrapes, etc. Puncture wounds need special treatment. These do not tend to properly “bleed” and hence remove particulates that may be in the wound.

Be aware of your surroundings, with our expanded love of the out of doors and with the present love of bears and coyotes being closer to our living areas, these require vigilance. We were in north Georgia a couple of weeks ago and saw a Bobcat. First one I have ever seen in the wild. Now, we were on a road and it was in a great hurry to get away from the road, but it was not too far from a housing development.

So anyway, be safe, stay hydrated and stay cool. Staying cool can present many enjoyable days in the outdoors and there are a number of ways, that adverse instances can occur.

**Education Report**

Danny Griffin, SFMS Education Co-Director

As I write this report the 2\textsuperscript{nd} session of the SFMS Workshops is just two days away. Enrollment has been very good this year and it seems that the workshops are on the rise. The first session at William Holland went very well thanks to the great job by the Director, Registrar, and volunteer instructors. I expect the August session at Wildacres to be equally successful. The remaining workshop in September is filling rapidly and the Cold Connection and Enameling is already full and has a waiting list. I hope to see many of you there. If you’re interested in attending the September session, at Wildacres, please see the class list and schedule at [www.sfmsworkshops.com](http://www.sfmsworkshops.com). Also, see last month’s Lodestar for a list and short description of the September classes.

**Annual Meeting Competition Cases**

Uniform Rules Chair, Leslie Wayment

The SFMS Annual Meeting will include Competition cases this year. Any member of a SMFS society is welcome to enter a case. We will be using the AFMS rules. The application for entering a case is available in the Lodestar or off the SFMS website. Please note, an officer of your home club must sign the form to verify that you are a member in good standing. If
you have questions, please email me. I will respond as quickly as I am able. The application form must be postmarked by October 10th, so I will have time to plan space and judges. The cases will need to be setup on Friday, November 6th between noon and 5PM, and should not be taken down until Sunday, November 8th at 4PM. Judging will take place on Saturday afternoon, after the SFMS meeting is over. Awards will be presented at the banquet Saturday night.
APPLICATION TO EXHIBIT

Print legibly - Information provided below will be used on all documents
