President's Report

It was nice seeing many of you at the first quarterly meeting in Largo, Florida. I would like to thank the Pinellas Geological Society for such a warm welcome and hospitality. I truly enjoyed visiting their show and the dinner gathering afterwards. At the meeting Dave and Leslie Wayment announced that they have the packets for the raffle that will replace the Stamp Program. I encourage each club to participate to win a chance for your club to receive a scholarship to one of the SFMS workshops. I would like to reinvigorate the SFMS youth programs and outreach. If your club has an active youth program I would like to hear what has worked for you. I would also like to know what kids activities are popular at your yearly shows. I would like to share these ideas with all of the Southeastern clubs so we can help grow our clubs and inspire the love of gems, minerals, rocks and fossils in the younger generation. I hope many of you will join us at our next meeting in Franklin, NC.

Secretary's Report

SFMS 2nd Quarterly Meeting Information

May 13, 2017

Hosted By Gem and Mineral Society of Franklin NC

The Gem and Mineral Society of Franklin, N.C. Invites all Officers and Members of the Southeastern Federation of Mineralogical Societies, Inc. to join them for their May Rock Show.

Sat. 10-5, and Sun. 10-4. Location will be announced at later date. Their Show building in under renovations.

Committee Reports

Safety

– Bob Green, Chair

Happy warm February; the past weekend was more like April than February, so we should enjoy because it is still February. The warm weather of course brings out the flowers and when you walk outside, you see all of the debris, that winter has left us. Art our house, multiple trees have died thanks to the Wisteria.

As with last month, just be safe with the wide ranging weather. Having severe weather is not unusual in the south, or for that matter anywhere In the US. As I have in the past, be prepared for severe weather, heed the weather warnings. Heed the admonitions to be prepared for being without power, so that means having water and non-perishable food for at least a week. I think some folks say three days, but when you have a severe ice storm or a severe tornado outbreak and you are a victim, more is better.

Heed also the doctors warning, if there is a severe weather outbreak to not over exert yourself. Multiple heart attacks occur while disposing of 6” of partly cloudy.

I am in process of cleaning out my garage. We have a 2 car garage with no car inside. As a caution, when you have a detached garage such as ours, field mice can take residence during the winter. Cleaning up after these critters can be hazardous to your health. Dropping from these critters can contain viruses that are hazardous. So wear protective masks. In reality the little dust masks that are used to keep your allergies at bay are not adequate in this situation, so be prepared.

Also this is the time to relocate plant and trees, so if you are the proud owner of poison Ivy and the likes, remember the roots also carry the oils that cause the rashes. One of the worst cases I have ever had was because I forgot where my poison Ivy resided and interfered with its existence. So, I now practice removal using chemicals to keep the stuff at bay.

Wear the proper protective gear and make sure the powered utensils you use is in proper
working order. I planned to remove some of the dead trees around the house and retrieved my chain saw. Well, I had not used the poor thing in a couple of years and I got lots of pulling exercise as I failed to get the saw started. This weekend I will take the saw into a shop to get it repaired.

My mower did start, so I was able to get rid of more fallen leaves and the outside is starting to look better, just in time for the next weather event.

So, be watchful and plan your activities and do these safely.

Scholarship Committee

– Dave Wayment, Chair

By now, or in the next few days, all club Treasurers will receive a packet in the mail containing drawing tickets and this explanation letter. Starting with the March Lodestar, and shortly on the website, photos of the donated prizes will be available. Please help make this program a success. Let’s see how many SFMS Workshop Scholarships we can create for 2018.

At the 2016 Annual Meeting, the SFMS replaced the stamp collecting program with a drawing to raise funds to provide full Scholarships to the SFMS Workshops. We are asking all member clubs and societies to participate in two ways.

The first way to participate is to donate an item to be a drawing prize. Each member club will receive acknowledgement if it donates a prize, or if a member of the club donates a prize. All prizes should be mailed to Dave Wayment, PO Box 780791, Sebastian, FL 23978. Each prize should be identified, include the value of the item (we request that prizes have at least a $25 value), identify who made the item if it is hand made, and who donated the item. Photographs and descriptions of all prizes will be posted on the SFMS website and published in the Loadstar.

The second way to participate is to sell the drawing tickets. Each member club is being sent 100 tickets for the drawing. The tickets are $5 each or 5 tickets for $20. We ask that each member club’s treasurer, or another member chosen by the club, be in charge of selling the tickets, collecting the funds, and returning the ticket stubs, monies and unsold tickets to Dave Wayment at the same above address. The drawing for the prizes will be held at the Annual Meeting. We will need the ticket stubs, etc, returned no later than 3 weeks prior to the Annual Meeting. For 2017, October 1st is the date we are looking to have the items returned by.

Please remember, the scholarships to SFMS workshops are NOT prizes in the drawing. All member clubs that participate will be entered into a drawing for the scholarships as outlined in the By-Laws:

FOR THE SCHOLARSHIP DRAWING, EACH MEMBER CLUB WILL HAVE 1 CHANCE IN THE DRAWING FOR EACH PRIZE ITEM DONATED FROM THE CLUB. FOR THE
DRAWING TICKETS SOLD, EACH MEMBER CLUB WILL RECEIVE CHANCES IN THE DRAWING BASED UPON THE NUMBER OF TICKETS SOLD DIVIDED BY THE NUMBER OF MEMBERS, AS REPORTED TO THE MEMBERSHIP SECRETARY THAT YEAR. IF THIS PERCENTAGE IS LESS THAN OR EQUAL TO 0.25 THEY WILL RECEIVE 1 CHANCE IN THE DRAWING. FOR PERCENTAGES GREATER THAN 0.25 BUT LESS THAN OR EQUAL TO 0.5 THEY WILL RECEIVE 2 CHANCES IN THE DRAWING. FOR PERCENTAGES GREATER THAN 0.5 BUT LESS THAN OR EQUAL TO 0.75 THEY WILL RECEIVE 3 CHANCES IN THE DRAWING. FOR PERCENTAGES GREATER THAN 0.75 BUT LESS THAN OR EQUAL TO 1.0 THEY WILL RECEIVE 4 CHANCES IN THE DRAWING. FOR PERCENTAGES GREATER THAN 1.0 THEY WILL RECEIVE 5 CHANCES IN THE DRAWING.

If you have any questions, please contact Dave Wayment, SFMS Workshop Scholarship Committee Chair, at 772-532-6432

WILLIAM HOLLAND SFMS WEEK JUNE 11TH 2017

Join us for the 2017 SFMS week at William Holland. We have an awesome week planned for you this year with a talented group of instructors. Please follow the links below to the website, to download the registration form and Facebook page to read more about each instructor, check out the photo album of their class samples.

We are trying hard to fill all of our classes so we are asking for your help to share this information with your local clubs. Please go to the FB page and share with your local club pages. We really appreciate your help and look forward to seeing you this year for Federation week!

Articles of Interest

COQUINA, THE BUILDING BLOCKS OF HISTORY

In 1513, Spain claimed Florida with an expedition lead by Juan Ponce DeLeon. The French lead by Jean Ribault had started a colony near Mayport, Florida after landing on May 1st in 1562. They constructed a wooden stockade type fort called Fort Caroline. Two years later in 1564 the Spaniards landed in what is now St. Augustine, Florida. Spain was angered by the French; so King Phillip of Spain sent Don Pedro Menendez de Aviles to take Florida and end the French threat. The French were attacked and killed so Spain took control of Florida.
More than a hundred years passed and in 1672 ground was broken to build Castillo de San Marco, (Fort Saint Mark). The construction was painfully slow and took 23 years to complete. The fort is primarily an earthen work with interior and exterior stone. The Spaniards used a material called “Coquina”. This shell rock was discovered close to where they wanted to build the fort. It was quarried on Anastasia Island which lies southeast of St. Augustine City. This coquina was cut into blocks and shaped by design. This coquina rock consist of shells, sand and calcite which has leached from the shells. Coquina is a light weight and tan colored shell stone. This material is porous and not as heavy as limestone. Sometimes fossils can be embedded within the chunks as well as whole shells.
Coquina is found along Florida's eastern sea coast from Jacksonville and South to Cape Canaveral area. There is an area where coquina outcrops on the beach can be seen at Marineland and South a few miles to Washington Oaks State Park on highway A1A. The Spanish used coquina because it was readily available and easy to quarry.

In 1740 British General James Ogelthorpe lead his troops from Ft. Frederica in south Georgia on St. Simons Island to take St. Augustine. The fort was attacked for days with cannon fire. The British were unable to successfully take the fort because the cannon balls could not penetrate the thick coquina walls. The cannon balls would just hit and roll off. The coquina proved to be the best available construction material. They also used sable palm logs to construct many of the ramparts outside the fort walls. A water moat surrounded the fort and provided further protection. The design of the sloped walls successfully endured 27 days of bombardment and so the British burned the city and retreated. The Spanish ceded Florida to the United States in 1812.
Fort San Marco still stands today 344 years after the Spanish completed construction. The local all-natural material “Coquina” is a witness to its durability and time has proven it to be “The Building Blocks of History”.

Take a trip to beautiful and historical St. Augustine, Florida and see the fort for yourself.

In 2013, as a personal project, I built a scale model (12”=200’) of the fort at St. Augustine. My purpose was to demonstrate something that was constructed from materials found in Florida. The St. Augustine fort is made of coquina with mortar made from lime and sand. I created the model as close to the original as possible. I covered the exterior with very fine crushed coquina shell.

I have family ties to St. Augustine on my mother's side. My grandfather Mr. John T. Bundrix was assistant lighthouse keeper from 1901 – 1908. During that time one of my aunts was born there. In 1901 was the Great Fire of Jacksonville, Florida. It was the third largest urban fire next to Chicago and San Francisco. The fire could be seen from the lighthouse some 38 miles away. In
the 1970's the lighthouse fell into disrepair but has since has been completely restored and can be toured. Over the years our family made numerous trips to St. Augustine to revisit the lighthouse and have Easter picnics near the waterfront where it is located.

AN INVITATION TO EXHIBIT IN THIS YEAR’S NATIONAL SHOW!

By Jim Brace-Thompson, 2017 CFMS-AFMS Show Publicity Chair

On behalf of the Ventura Gem & Mineral Society, I invite you to exhibit in this year’s national AFMS Show & Convention taking place June 9-11 in Ventura, California. Enter either a competitive or a noncompetitive display—or one of each! Go to the show website at http://2017CFMS-AFMSShow.com to access and download entry forms by clicking on “Files and Entry Forms.” You’ll also find a direct link to the AFMS Uniform Rules manual. The deadlines are May 22 for noncompetitive entry forms and April 30 for competitive forms, so don’t delay.

Exhibiting is fun! When displaying at a gem show, we not only get to show off our collections and handiwork but also to learn from others, seeing display techniques, getting advice, sharing tips, and forging bonds of friendship through mutual interests. There is a host of trophies for adult exhibitors, including a special trophy for nervous first-time Novice Exhibitors sponsored by the hosting Ventura society. Kids entering either competitive or noncompetitive displays can earn the Showmanship badge in our AFMS/FRA Badge Program, and those entering competition can strive for both trophies and the AFMS Lillian Turner Award. Several years ago, Lillian Turner of Bethesda, Maryland, generously donated funds to support an award for the best junior’s exhibit at the annual AFMS Show. The award consists of a certificate, a $100 bond, and a mineral specimen and is presented at the Show Awards Ceremony. I guarantee that adults and kids who choose to display in Ventura will find the experience both rewarding and fun!
AFMS Judges Training Seminar

June 6-7, 2017
Clocktower Inn
Ventura, CA

There is a lot of excitement about attending this seminar. When it was heard through the grapevine last summer the seminar was being arranged for 2017, everyone was cheering. The seminar is for judges, exhibitors, and anyone who would like to better understand the AFMS Uniform Rules.

B. Jay Bowman, renowned across the country for his teaching skills in AFMS Judges Training Seminars, is leading the course. Jay’s class is 2 days of classroom study of the AFMS Rules book, and then a day of practice judging on Friday, June 9th at the Ventura County Fairgrounds, at 9:00 a.m. in the San Miguel/Anacapa Halls.

The classroom can take up to 50 people, so we hope to see many of you there. The fee for the course is $25 and includes lunch both days. By taking the seminar you will be able to improve your personal exhibits skills and be able to better assist your home society and neighboring societies in their annual showing of exhibits, with the knowledge you’ve gained.

For those who want to stay at the inn, we were able to get the best room rates in town for you, along with free parking for quests staying at the inn, and for those attending the seminar. Free parking in Ventura is rare, so we are happy we could do this for you. Deadline for registering for the seminar is April 30, 2017. For more information for registering at the inn, and for the seminar, please see the link for the AFMS Judges Training Seminar on the calendar of the CFMS website.

Gem and Mineral Shows

February 25-26, 2017, Jackson, MS

58th Annual Gem, Mineral, Fossil and Jewelry Show
