FROM YOUR PRESIDENT
Jason Hamilton

The AFMS/MWF Annual meeting was very impressive. It was interesting to see how other federations run their meetings. The SFMS was well represented as David and Leslie Wayment commanded a stellar presence as SFMS Uniform Rules representatives. I was very fortunate to share time with them at the meeting and at the show. Harriett Rose from the Jacksonville Club accepted the SFMS liaison for Danny Griffin. Harriett Rose is the Host Co-Chair for the 2013 annual AFMS/SFMS meeting in Jacksonville for 2013. I was impressed with the amount of work and information she was able to accomplish and gather in such a short period of time during the show and meetings. Preparations for next year’s meeting are well in motion. There was a side class all the SFMS reps attended on creating websites for clubs. This was a very informational and educational opportunity. This class removed a lot of the apprehensions I might have had about trying my hand at creating a website. At the very least, it has made me appreciate the hard work that goes into website creation and management.

It was wonderful to see our very own Don Monroe installed as the 2012-2013 AFMS President. Congratulations Don, and job well done sir! I’m looking forward to seeing what the year has in store for the AFMS and for you.

Classes are still available at Wildacres. It’s not too late to sign up. I hear the Silver Filigree class has room left in it. I took this class last year and had the time of my life. The instructor is very talented and a lot of fun to hang out with. The class is upbeat, interactive, rewarding and downright fun!!! Do take the time to look into this class.

I'm looking forward to the SFMS Annual meeting in Tampa FL. I hope each and every SFMS Club can come and be a part of the fun and excitement. I look forward to seeing you there.

CARL’S EDITORIAL COMMENTARY

This month’s edition contains a lot of information regarding the SFMS Annual Meeting to be held in Tampa, Florida on Oct 20, 2012. Due to space constrains, I have not included our usual “lead article” but will return to this format in the Sept 2012 edition with an article entitled “A Short History on Gold and Silver as Money” condensed from a lecture I presented at this month’s Tri-State Gem & Mineral Club (Hayesville, NC) meeting.

The SFMS Nominations Committee has reported out a slate of nominees listed on Page 8 for consideration at the Annual Meeting elections. Nominations from the floor will be considered provided these floor nominees have agreed, in advance, to serve.

Though SFMS Annual Meetings in the past few years have not included case exhibits for competitive judging, please see the application forms for same at Pages 6 & 7 if you are interested in participating.

What Supports Us?

This is a question with many interpretations. One possible answer is “our feet”. This is obvious but covers a multitude of issues. Foot care can have a major effect on our over-all health and well-being.

Let’s start with shoes and shoe selection. Shoes support our feet and, as such, play a primary role in foot care. To achieve proper fit, shoe selection is vital. When many of us were young, all shoe stores had some type of x-ray machine that would show if the shoe you were trying on properly fit your foot. These machines are a thing of the past, and I am not sure why. I suspect that there was a concern about exposure to x-rays and possible health issues. It could also have been a cost factor as I am sure that the machines were quite expensive. When I mention children’s shoes, my wife always tells me that her parents insisted that she wear Buster Brown oxfords to school, sandals at Easter and Mary Jane’s for Christmas.

Technology has moved forward a bit, and Dr. Scholl’s (an arch support company) has a machine that will prescribe the type of orthotic that you need for foot comfort. I have not tried this approach. I have heard that your shoes will mold to the shape of your foot as you wear them. I do know that you should change your shoes often and fresh socks every day will help keep your feet dry.

Other potential foot problems include swelling of the feet, corns and bunions. Foot problems can probably best be solved by your physician. Many folks say that their feet feel better if they go without shoes as much as possible. This may be so, but I don’t believe in it. In my youth back on the farm, I did go “barefoot” as we called it. Problems resulting from this included: stepping on rusty nails which always resulted in a tetanus shot, stepping on broken glass and, in one case, being bitten by a rattlesnake. The snake only succeeded in scaring me half to death. From then on I wore shoes.

People of all ages can have foot problems, but older folks will usually have more of them. Always remember that foot problems and diabetes go hand in hand and are not your friend.

Education Committee

Hello All SFMS Members,

The Wildacres Workshops are coming up rather rapidly. We are showing a very low enrollment. We need everyone to consider attending a Workshop. These are wonderful, and you have a great time with all the other attendees.

We need you to support these workshops or we won’t have them anymore. Please consider attending the August 20th Wildacres Workshop, the September 8th, Wildacres Workshop, or the October 8th William Holland Workshop. Available classes are listed on Page 9.

Looking forward to seeing more of you at the workshops.

Thank you
Kathy Morris
